

Thank you for giving us the opportunity to treat you.

What to Expect

Check-In	Please complete your forms while waiting.
“Triage”	A nursing and social work student will greet you and get your blood pressure, temperature and weight. This should take about 5 minutes.
Interview	Using a video connection, a medical student and other team members will ask you questions about your health. This should take about 15 minutes.
Team Planning	After the interview, the students will go into another room to review your file with a physician. They will consider the best possible treatments for you. This will take 15-30 minutes, depending on your file.
Visit with the Doctor	The physician will visit with you and discuss your needs and make recommendations. If you agree, the student team will wrap everything up. This should take about 5 minutes.
Labs and Prescriptions	Students will assist you with any follow-up needs, including lab instructions or filling your prescriptions. This should take about 5-20 minutes.
Discharge	You’ll check-out with the front desk.

Most patients are complete in about 60 minutes.
